Debian Upgrade

Upgrade debain11 to debain12:

1. Edit the file `/etc/apt/sources.list` using a text editor and replace each instance of `bullseye` with `bookworm`. Next find the update line, replace keyword **`bullseye-updates`** with `bookworm-updates`. Finally, search the security line, replace keyword `bullseye-security` with `bookworm-security`
2. Update the packages index on Debian Linux, run: `sudo apt update`
3. Prepare for the operating system minimal system upgrade, run: `sudo apt upgrade --without-new-pkgs`
4. Finally, update Debian 11 to Debian 12 Bookworm by running: `sudo apt full-upgrade`
5. Reboot the Linux system so that you can boot into Debian 12 Bookworm
