

Remove Win password

Setup:

1. Boot Linux
2. Install chntpw

1. `sudo apt install -y chntpw`

3. Mount win disk

4. cd into `<win-disk>/Windows/System32/config`

5. run

```
sudo chntpw -l SAM
```

6. use

```
sudo chntpw -u "Username" SAM
```

7. Reboot to Win and have fun xD
